Morgan

Beginning its second hundred years

H.F.S. Morgan began manufacture in 1910. The Morgan name made its very first public appearance at the Olympia Motor Show in 1910. Two three-wheelers, both single seaters fitted respectively with 8 hp Twin and 4 hp Single cylinder J.A.P. engines, secured some orders. The Morgan is a motor industry phenomenon. In a small town in Malvern Link, Worcester, England, the factory is run by Peter Morgan and his son, Charles, where the Morgan 4/4, +8 and +4 are still built. They, and the workforce of just under 100, lovingly produce about ten of the hand-built, ash-framed cars per week.
